Save Thousands of \$ - Eliminate costly power drops and improve safety.

Wireless Transmission – Our proprietary wireless hinge with kinetic switch (Patent Pending) transmits a micro-burst energy packet which activates the LED safety warning sign.

Extended Range – Wireless RF signal transmits up to 1000 feet (300 M) for deployment flexibility.

Plug & Play – Smart Gate and sign are paired at the factory for installation ease.

Expandable – Additional gates, kinetic components and other interactive sensing devices can be packaged to address any conventional or unique in-plant safety concerns.
