

DURASTRIPE GOLD STORAGE

DuraStripe Cold Storage combines a durable, impact resistant striping surface with an aggressive, low temperature adhesive to deliver a safety striping material that conquers the cold. Available in 2" (5cm) and 4" (10cm) widths of 100ft (30M) rolls.

STRONG BOND

BEVELED EDGE

COLOR VARIATIONS

Strong Bond – Aggressive bonding properties deliver exceptional performance in cold and wet environments.

Beveled Edges – Assist dragged or pushed pallets in sliding over the stripe to resist chipping, slicing and tearing, even in cold environments.

Color Variations – 7 solid colors and 4 hazard stripes offer multiple visual identification options.

Technical Data

Thickness (mm)	0.13 ± 0.02 mm
Adhesion to Steel*	40 N / 25 mm
Shear Adhesion**	30
<small>(23°C, 500g, 100mm²)</small>	
Recommended Usage	-40°C to 60 °C
Installation temperature	+ 4°C
Stripe and Adhesive Thickness (mm)	.85 ± .05 mm
Non-Skid/Textured***	Class R 10 / 11.6 ° Per DIN 130

* According to A.F.E.R.A. 5001 ** According to A.F.E.R.A. 5012
*** Anti-Slip Class R 10: Total acceptance angle 11.6 ° Test Basis DIN 51130
