**COST EFFECTIVE** **WIRELESS** **EXTENDED SIGNAL RANGE** **PLUG-N-PLAY** **EXPANDABLE**

**Save Thousands of \$** - Eliminate costly power drops and improve safety.

**Wireless Transmission** – Our proprietary wireless hinge with kinetic switch (Patent Pending) transmits a micro-burst energy packet which activates the LED safety warning sign.

**Extended Range** – Wireless RF signal transmits up to 1000 feet (300 M) for deployment flexibility.

**Plug & Play** – Smart Gate and sign are paired at the factory for installation ease.

**Expandable** – Additional gates, kinetic components and other interactive sensing devices can be packaged to address any conventional or unique in-plant safety concerns.
