

LED Solutions: Wireless Detection Systems

Wireless sensors that pair with our LED Signs. Protects against dangerous collisions between pedestrians and vehicles.

Pedestrian Detection Combo Part # ERGO-IWS-60-D

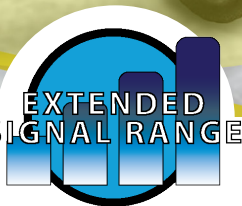

Price : €495,00

Includes :

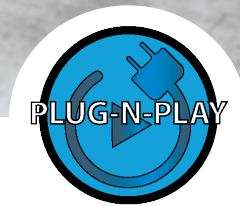

- A** Pedestrian Motion Sensor
- B** 1 60cm Double Sided LED Sign

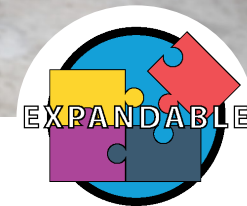

WIRELESS

EXTENDED
SIGNAL
RANGE

PLUG-N-PLAY

EXPANDABLE

Wireless Transmission – Our proprietary motion sensor unit transmits a wireless signal which activates the LED safety warning sign.

Extended Range – Wireless RF signal transmits up to 1000 feet (300 M) for deployment flexibility.

Plug & Play – Wireless detection systems and signs are paired at the factory for installation ease.

Expandable – Additional detection system components and other LED signs can be packaged to address any conventional or unique in-plant safety concerns

LED Solutions: Wireless Detection Systems

LED Signs that pair with our Wireless sensors.
Protects against dangerous collisions between
pedestrians and vehicles.

Choose A Sign

30cm or 60cm Pedestrian or Forklift LED Sign

Includes: 1 Wireless receiver, 6 amp power supply & 15.24M 12V wire

30cm Single Sided Sign KIT PRICE: €239,00

Part # ERGO-IW-30-S

30cm Double Sided Sign KIT PRICE: €265,00

Part # ERGO-IW-30-D

60cm Single Sided Sign KIT PRICE: €359,00

Part # ERGO-IW-60-S

60cm Double Sided Sign KIT PRICE: €399,00

Part # ERGO-IW-60-D

60cm Interactive Wireless Four Sided CUBE Sign

Includes: 2 Wireless receiver, 2 6 amp power supply & 15.24M 12V wire

COMBO PRICE: €1189,00

Part # ERGO-IW-60-2R

Customizable Stop/Go Sign

Includes a Box (15cm x 30cm x 5cm) with Red and Green LED Lights with laser sensor & reflector, 6amp Power Supply, 30/40 amp Relay Harness, 7.62cm of 12V wire.

UNIT PRICE: €415,00/kit

Part # LED-BOXR/G15x30x5-HW

Choose Your Wireless Detection Sensor

Motion Sensor Unit

Includes: motion sensor, wireless transmitter, 2 amp power supply and 10M 12V wire

Unit PRICE: €110,00

Part # LED-WL-TRANSMITTER-2A

By detecting pedestrians entering a small area.

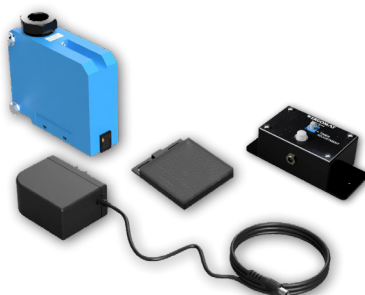

Triggers LED sign:

Laser Beam Detection Unit

Includes: wireless transmitter, 2 amp power supply, laser beam and 10M 12V wire

Unit PRICE: €299,00

Part # IWS-LBT

By breaking the laser beam.

Vehicle Detection Sensor Unit

Includes: wireless transmitter, 6amp power supply and 10M 12V wire with remote control

UNIT PRICE: €859,00

Part #: IWS-SST-R

By detecting vehicle traffic from multiple directions.

Occupancy/Light Curtain Scanner for an area up to 24Mx24M

Includes 6 amp power supply and wireless transmitter, 10M 12V wire with remote control

UNIT PRICE: €1799,00

Part #: IWS-OCO-R

By using light curtain technology (horizontally or vertically) to warn of potential obstructions.

Specialty Signs

Stand Alone Portable Solution

Includes: 46cm double sided sign on yellow base, 1 rechargeable battery, 1 motion sensor

UNIT PRICE: €679,00

Part # STANDALONE46-MD
