

A Revolutionary Wound Dressing From ERGOMAT

Punctures and cuts, aches and pains all affect the productivity of a workforce. OxyWrap wound dressings provide indispensable solutions to a variety of impediments to productivity.

AVAILABLE COLORS

PRODUCTS THAT KEEP THE WORKFORCE WORKING

OxyWrap is a unique new wound dressing product that is ideal for bandaging workplace, recreation or home injuries.

- Latex and adhesive-free wrap with cross-elastic properties sticks to itself, but not to skin or hair
- Fast application!
- Easy to fix - even on body parts that are hard to dress and secure.
- Flexibility of the material allows a patient to maintain almost complete range of motion when joints are wrapped.
- Breathability of the material allows faster healing
- Works even in water or when sweating, keeps its form (will not "slide").
- Will not shrink like other bandages.
- Can be placed directly on the wound with no need for additional dressings like cotton or gauze.

TWO STYLES TO CHOOSE FROM

OxyWrap – Soft (Natural or Blue):

Ideal for smaller wounds with less blood and liquid, particularly the fingers, toes, wrists & joints

OxyWrap – X-Treme (White):

Unparalleled for emergency first aid for larger wounds and for pre-treating injuries that may require an Emergency Room visit.

	Soft Natural Full Case and Dispenser Kit	(2"x15')	Case (24pc) & Dispenser (1)	OXY-N-24 KIT
	Soft Blue Full Case and Dispenser Kit	(2"x15')	Case (24pc) & Dispenser (1)	OXY-B-24 KIT

Adhesive-Free Bandage	Does not stick to wounds, skin or hair	No glue residue left-behind
Only Sticks To Itself	Can be used together with ointments & Soft creams with no need for additional clips, pins or tape	Not necessary to clean the skin for dirt or grease before applying (only the wound must be clean)
Soft & Elastic	Lightweight properties make it extremely comfortable, and forms easily with joint movement	Fits under gloves
Porous Material	Allows the wound and skin to breathe and does not leave "white" or "puckered" skin under the bandage	Breathability promotes smaller scabs & faster healing
Highly Absorbent	Wicks away blood and liquids from the wound	Ideal for bleeding wounds
Stops the Bleeding	Applying several layers and tightening the bandage stops the bleeding	Stops bleeding, closes the wound, producing less chance for infection
Adheres in Water	Will not fall off, even when wet, and will not shrink	Protects the wound at all times
OxyWrap – (Blue)	Highly visible	Great for the food processing industry – the blue color makes it easy to detect
OxyWrap - X-treme	Thicker and stronger than OxyWrap – Soft	May be used to create a non-slip support bandage, as a pressure element or as an absorbent gauze
